

# Marwan Ali Mohamed

CS Student

 <http://linkedin.com/in/marwan-ali-02740735a>  +2 01224038870  Cairo, Egypt

E-MAIL: [mrwanali257@gmail.com](mailto:mrwanali257@gmail.com)

## PROFILE

---

Ambitious 3rd-year Computer Science student specializing in Software Development and Artificial Intelligence. Demonstrated capability in building intelligent applications, cloud-based tools, and full-stack solutions. A dedicated problem-solver with a solid foundation in algorithmic challenges, database management, and cross-platform frameworks. Passionate about learning new technologies and delivering optimized, scalable code within dynamic development teams.

## EDUCATION

---

MODERN UNIVERSITY (MTI)

GPA:2.5

(Expected Graduation: 2027)

Bachelor of Computer Science

## SKILLS

---

### TECHNICAL SKILLS

- **Programming Languages:** python, SQL, C++, JAVA, Dart
- **AI & cloud technologies:** Generative AI (AWS Party Rock), Machine Learning Foundations, Prompt Engineering, AI Fundamentals
- **Software & Mobile Development:** Flutter, Full-stack Web Development (Frontend & Backend)
- **Databases & Tools:** MySQL, Git & GitHub
- **Core Concepts:** Data Structures, Algorithms, Object-Oriented Programming (OOP), Relational Database Management Systems (RDBMS).

### SOFT SKILLS

- **Communication & Collaboration:** Effectively collaborates with university peers and technical team members on group projects.
- **Problem-Solving & Logic:** Strong analytical mindset focused on breaking down complex algorithmic structures and code optimization , Algorithmic Challenges Actively solved numerous programming challenges focusing on optimal execution time and memory management.
- **Adaptability & Continuous Learning:** Highly adaptable and capable of rapidly learning new technologies, frameworks, and tools.

## TECHNICAL PROJECTS

---

### **AI-Powered Weather Analysis Application | AWS Party Rock, Generative AI, Prompt Engineering**

- Developed an AI-driven weather analysis tool using AWS Party Rock during the AWS AI Practitioner Challenge.
- Designed and optimized prompts to process weather data, delivering accurate, real-time automated insights and analytics.
- Leveraged cloud-based foundational models to build an interactive, user-friendly AI application interface.

### **Hospital Database Management System | SQL, Relational Databases (MySQL)**

- Designed and implemented a robust relational database schema for a hospital management system to handle patient, doctor, and appointment records.
- Created complex SQL queries, joins, and subqueries to ensure fast data retrieval and maintain data integrity.
- Optimized database performance and structured data constraints to prevent redundancies.

### **Full-Stack E-Commerce Platform for Clothing |HTML, CSS, JavaScript, Backend Logic, SQL**

- Developed a responsive full-stack web application for a clothing retail store from scratch (Frontend & Backend).
- Implemented backend logic for product catalogs, user authentication, and shopping cart management.
- Built a dynamic and visually appealing user interface, ensuring smooth cross-device compatibility.

### **Home Electrical Appliances Website | HTML, CSS, JavaScript, Bootstrap**

- Designed and developed a clean, user-centric frontend interface for an electrical appliances e-commerce platform.
- Focused on creating interactive product displays, responsive grid layouts, and an intuitive user experience (UX).

## CERTIFICATION

---

- **PYTHON Programming Basics** From Mahara-Tech platform from ITI
- **One Million Prompters in Ai** From Dubai Future Foundation & Dubai Centre For AI
- **AWS AI Practitioner Challenge** From Udacity & Amazon Web Service <https://lnkd.in/d48C5zf4>
- **ICDL** From Mit Academy
- **Microsoft x Sprints Summer Camp-Mobile Development**
